

OBJECTIVE

I am a senior React JS developer with immense experience in building high-quality sites.

I can be a great team leader being a problem solver. Jumping into any existing code and turning it into quality code is at my Finger Tips.

It's important to me to build long term relationships with clients, so I am primarily looking for long term projects.

Skills

- Having 5+ years of industry experience focused on web application development and system integration using Next Js, React Js, Node Js, Typescript, C#, SQL Server, jQuery and third-party service. Good Exposure in production support activities.
- Own the responsibility of the whole task and scrum ceremony
- Create the task and estimation with respect of velocity in sprint.
- Possess good Communication & Analytical skills, good team player. Also involved in direct interaction with our customers and solve their queries and direct reports to clients.
- Knowledge of Full-Stack Development using ReactJS, Next JS
- Script: JavaScript, jQuery, TypeScript, jQuery, JSON
- Design Style: HTML5, Responsive/Adaptive Design, CSS3, Bootstrap, PSD to HTML
