Business Data Analyst

SUMMARY

As a seasoned Business and Data Analyst with expertise in Python, SQL, AWS, Agile, Jira, MS Office, and MS SharePoint, I excel in Data Reporting and Visualization using PowerBI, Tableau, and AWS visualization tools. I have a proven track record in testing and analyzing business requirements, deploying Applications, Business Processes, and System Solutions. With strong communication skills and experience in leadership roles, I have successfully applied Agile Methodologies with JIRA throughout the Software Development Life Cycle (SDLC). My technical analysis skills include Data Extraction, Exploratory Data Analytics (EDA), Regression Analysis, Data Validation, Formatting, Process Mapping, and Master Data Management (MDM). Proficient in database management software and processes, including AWS services, SaS Enterprise Miner, SAP, Snowflake, ETL, and Informatica MDM, I provide invaluable insights and actionable recommendations for stakeholders. Passionate about leveraging data in AWS and other platforms to drive business decisions, I am ready to take on new challenges and consistently deliver optimal results.

PROFESSIONAL EXPERIENCE

Business Data Analyst   Nov '23 - Jan '24

St. Charles Trading   Chicago, IL

- Automated various accounting tasks in **Sage ERP** using **Kofax RPA**, creating and deploying multiple projects with **SQL integration**
- Completed and delivered several backlog projects within deadlines, **clearing a two-year backlog**
- Created and manipulated various database tables using **SQL**, enhancing **data management and accessibility**
- Developed multiple **SQL stored procedures** and integrated them with **automation projects**, streamlining **data processing** and **workflow**
- Resolved various **hardware and software** issues around the office, improving system **performance and reliability**
- Generated **multiple reports** for different stakeholders, providing valuable **insights and recommendations**

Financial Business Analyst   Apr '23 - Aug '23

Allianz Global   Chicago, IL

- Leveraged **AWS QuickSight** for designing and sharing interactive **dashboards, enhancing data visualization.**
