Digital Techno Tron Pvt Ltd

-Basic understanding and hands-on experience with Tableau software
-Ability to translate raw data into charts, graphs, and dashboards using Tableau
-Efficient in designing complex dashboards that take advantage of all Tableau functions, including data blending, actions, parameters, calculation fields, Swap Sheets, Conditional Formatting etc.

PROJECTS

Maintaining Tableau Projects

02/2021 - 03/2022   Kochi

Projects on Sales , Finance , Retail , Healthcare domains

- Regularly updated and optimized existing Tableau dashboards to reflect the latest data and meet evolving business requirements.
- Monitored and improved the performance of Tableau dashboards, reducing load times and enhancing user experience.
- Ensured data accuracy and consistency in all Tableau reports by conducting regular data validation and quality checks.

Supply Chain Optimization with Tableau

03/2022 - 12/2022   Mumbai

Shipment Tracking Dashboard

- **KPI used**: Inventory Level, Days in Inventory, Cost of Inventory, Product Revenue, Total incident
- **Charts Used**: Bar chart, Map chart, Line chart, Pie chart
- The project focused on improving visibility, reducing costs, and facilitating better decision-making through comprehensive data visualization and analysis.

Finance Domain

01/2023 - 12/2023   Mumbai

Margin Analysis Dashboard

- **KPI used**: Current Balance, Current no. of customers, Current Margin, avg credit card score
- **Charts Used**: Stacked bar chart, comparative analysis chart, Donut chart, Butterfly chart
- **Description**: Loan managers at consumer banks need interactive dashboards that contain loan portfolio data. This financial dashboard example allows them to discover how different regions, product and loan officers perform over time and drive the biggest impact on revenue and margins.
